ON DEMAND: Essential Travel Photography Tips with Ralph Velasco

ON DEMAND video: Everyone takes pictures, but few intentionally make travel photography that everyone wants to see, and this is what separates the "point-and-shooters" from the creators. In this session, I'll also show you how to go beyond the postcard shots everyone else is taking and how to create interesting, storytelling images your friends and family will be begging you to see, not the other way around. We'll explore:

1. My Number One Photo Tip (let's just get this out of the way, it'll come in handy, for sure)
2. How to Point & Shoot (this is definitely not what you think)

3. Storytelling in photography (we as photographers are, after all, storytellers)
4. How Being Bold is almost always a good thing in travel photography
5. Distinguishing between Portraits and Environmental Portraits
6. Why it's important to Have a Theme in Mind
7. Timing & Anticipation and how they can be the difference between good, and great, photography
8. Giving Back (this concept will also surprise you)
